This help page is also available online.

Go to <u>www.IntegratedBreeding.net</u> and log in. If you do not have an account, please refer to the <u>Registration help page</u>. Select 'Peer Communities' from the 'Community Resources' drop-down menu

Select your Community of practice, or the community relevant to your publication. If you are not a member of this community, refer to the <u>Joining a Community help page</u> for instructions

Once in your Community, select 'Add a publication' from the 'Add' drop-down menu in the topright corner of the Community options bar

Enter the DOI number if you have it, and click 'Continue'; the site will automatically pull in all the information it can find about the publication

If you do not have it, or if the site doesn't seem to find it, choose your publication type and click 'Continue' to fill in the information manually
